Nature Camp at SAVE Nature Center
“NEW Full-Day Program”
REGISTRATION POLICY

• To register online for Summer Adventure Day Camp, Trips and Club Adventure Workshops go to www.sace.soudertonsd.org.

For mail in registration complete the registration forms found on pages 7-10. ALL CAMPERS AND WORKSHOP ATTENDEES MUST ALSO COMPLETE THE INSURANCE FORM FOUND ON PAGE 8. SACE reserves the right to return incomplete forms which may delay registration. A separate registration form and insurance form is required for each child being registered.

• Registration and payment for these SACE programs may be made online at sace.soudertonsd.org or over the phone: Aquatics, Driver Education, Volleyball League.

• To register and pay for SATV Television Production Camp, go to satv.soudertonsd.org or contact hfranz@soudertonsd.org.

• All payments are due prior to the start of camp on June 18, 2018. Online registration will close one week prior to start of camp or workshop, or when activities fill. All registration is on a first come basis. Contact SACE office for payment plan, if necessary.

• Tax Receipts will be mailed upon request.

REFUND POLICY

• A REFUND is when you ask for your money back after payment has been made.

• A $25 non-refundable Registration Fee is included for each camp, trip, workshop and SACE summer class.

• A refund will be granted (less the $25 Registration Fee per activity) with written notice received in the SACE office two weeks prior to the scheduled camp/day trip/workshop/class. A 30-day notice is required for Trip Week refunds due to the high demand and limited seating.

CHANGE POLICY

• A CHANGE is when one day or activity is switched or substituted for another with no money refunded.

• If you require your child’s participation for a day or activity to be exchanged for another, you must call the SACE office with your request 48 hours in advance to allow time to process your request.

• Changes will be granted only when availability exists. There will be no refund of payments for changes that cannot be made.

• Two changes may be made on a child’s registration with no charge. A surcharge of $25 for every change after the first two.

DAD CAMPS, PROGRAMS, AND WORKSHOPS WILL NOT BE PRO-RATED UNDER ANY CIRCUMSTANCE.
SUMMER ADVENTURE DAY CAMP— Pages 4-8

Summer Adventure is our day camp program and a place where children laugh, learn and love to come every day. We welcome children who have completed kindergarten through 6th grade. Each summer our campers explore a different adventure theme through games, songs, crafts, stories, outdoor activities, food, trips and their imagination. We offer children a structured day of fun activities while keeping in mind what kids need most in the summer—time to be a kid.

Our flexible schedule makes us a favorite among parents. We offer FREE extended hours and as always, lunch and snacks are included! Additional options include weekly field trips and swimming opportunities twice a week.

NATURE CAMP AT SAVE NATURE CENTER— Page 10

For all those nature loving campers we are offering three weeks of Nature Camp at the SAVE Nature Center located on the West Broad Street Elementary School campus. The full-day camp will provide a variety of topics for students to choose from with daily outdoor activities, crafts and natural adventures. A day of creative natural projects, games and exploration includes lunch and recess time.

CLUB ADVENTURE WORKSHOPS— Pages 9, 11-15

Our Club Adventure workshop program offers enrichment opportunities for children who don’t need a full day of camp, but would like to use their summer to explore different areas of interest. We schedule a variety of age appropriate workshops through the summer open to students who have completed kindergarten through 7th grade (check workshop listings for age ranges).

Whether kids want to spend a week testing their culinary skills, creating arts or crafts, expanding their science and technology expertise, or exploring their dramatic talents, parents can create a summer of activities specific to their child’s interests and schedule.

NOW AVAILABLE: Lunch/Swim option to allow students to stay at the high school for a full day of activities. Mail in registration for this option on page 10. Workshop registration form on Page 9. Online registration at sace.soudertonsd.org

SUMMER COMMUNITY PROGRAMS

Our summer programs offer opportunities for community members of all ages. From driver education and swimming lessons to pool rentals, grass volleyball league and SATV production classes, Souderton Area Community Education has something for everyone. See page 16 for more.

Open Swim Opportunities

Summer Adventure Open Swim will take place 14 times throughout the summer on Tuesday and Thursday mornings. Campers will spend the morning at the Souderton High School Pool and return to camp in time for lunch. Children signed up for swimming must be comfortable in the water. This is NOT a lesson—open swim only. Additional cost for the Open Swim is $20 per week.

Lifeguards will be on duty at all times and counselors from each camp site will travel with campers to and from the pool. Please send your child dressed in their bathing suit and with a towel and change of dry clothes on Swim days.

The number of campers on each swimming trip will be limited so register early to avoid disappointment. Be sure to register for your choice of swim dates online or on the registration form found on page 7.

SUMMER ADVENTURE TRIP WEEK

Campers will have many exciting adventures as they travel near and far during Trip Week. Each day, all campers will visit a different location to close out their summer camp experience. Cost of these trips is included in the Week 9 camp fee. Transportation, attraction admission, lunch, snacks and a camp shirt are all included!

Adventure Aquarium, Camden, NJ
Monday, August 13
Adventure Aquarium on the Camden Waterfront features one-of-a-kind exhibits with more than 8,500 aquatic species throughout two million gallons of water. The Aquarium is home to the largest collection of sharks on the East Coast, including the only great hammerhead shark on exhibit in the U.S., the only aquarium in the world to exhibit hippos, one of only six facilities in the U.S. to have Little Blue penguins and exhibits the longest Shark Bridge in the world.

Camelbeach Water Park, Tannersville, PA
Tuesday, August 14
Splashes and fun for all ages at Pennsylvania’s largest outdoor water park. With 37 rides, slides and kid-friendly attractions, getting wet has never been more exciting. Age appropriate activities include Pharaoh’s Portress and Camel Cove for younger guests with tube rides and slides for older campers.

Diggerland, West Berlin, NJ
Wednesday, August 15
Diggerland is an outdoor theme park focused on providing hands on opportunities for children to drive and control real construction equipment. Campers will have fun digging, scooping, demolishing in the dirt! New activities and rides open for 2018.

Cherry Crest Farms, Ronks, PA
Thursday, August 16
A camp favorite where campers find their way through the giant corn maze and participate in more than 50 fun farm activities. Cherry Crest gives guests an opportunities to laugh and learn while engaging in wholesome activities on a working farm.

Lenape Park, Sellersville Theater and Koolicks Water Ice, Sellersville, PA
Friday, August 17
Our campers will participate in cool activities and games as teams compete in fun challenges. Campers may even get wet! Following a picnic lunch at Lenape Park campers will head to the historic Sellersville Theater for a movie and camp slide show. Koolicks Water Ice will cool everyone off back at Franconia Elementary for our final Summer Adventure afternoon!

Nature Camp will run Monday through Friday, 8:30 AM – 4:00 PM
All campers must wear sneakers each day. NO SANDALS or OPEN-TOE SHOES ALLOWED.

- **WEEK 1** June 18-22  **ANIMALS IN NATURE**  **$185**
  This week is filled with outdoor exploration designed for campers to learn more about the animals and species that surround them in the forests, streams and fields of Pennsylvania. Campers will participate in activities that educate them about forest, water and soil science while participating in games and creative crafts that will stretch their learning about animals in the wild.

- **WEEK 2** June 25-29  **PLANT WEEK**  **$185**
  Campers will have fun in the SAVE Center and forest while learning about plant parts and processes. They will participate in interactive projects, engage in activities both inside and outside as they learn about all kinds of plants ranging from trees to bushes to flowers. Campers will become plant detectives as they search for clues about things that grow.

- **WEEK 4** July 9-13  **WATER WEEK**  **$185**
  Lots of fun opportunities for campers to get outside, get wet and learn about environmental issues. They will explore the creek bed and pond areas to observe water life and identify samples. They will learn how to conserve water and use it wisely. Each day will consist of different, fun activities that will let them express their creativity and bring back some great ideas to try at home.

REGISTER EARLY—Space will be limited for each week of Nature Camp. Be sure to complete mail in Registration Form (page 10) AND the Camp Insurance Form (Page 8). You may also register for all options online at: http://sace.soudertonsd.org/.

Club Adventure Workshops provide challenging, creative learning opportunities for elementary and early middle school students. Whether it’s music, art, cooking, sewing, technology, science, languages, drama or more, there’s a fun workshop for all. Check ages for each session. Student must have completed the grade listed.

Be sure to check out several new Middle School options.

The new Lunch/Swim option will allow participants to spend the day at the high school with a morning workshop, lunch and swim time plus an afternoon workshop. Be sure to register for the lunch/swim option if participating.

Workshop Registration form (page 9) and Insurance form (page 8) must BOTH be filled out and returned with mail-in registrations. To register online go to: http://www.soudertonsd.org/community/.

WEEK 1: June 18-22

Summer Band & Strings
A great way to keep music skills fresh! Children will have the opportunity to practice, perform and play their instruments each day with instruction from our workshop teachers. Workshop features small group instruction as well as full band and orchestral rehearsal, where students practice fun songs and learn rehearsal techniques they can use at home. The week concludes with a concert for parents, family and friends on Friday. For students who have had one or two years of lessons on these instruments: Violin, Viola, Cello, String Bass, Flute, Oboe, Clarinet, Saxophone, Trumpet, French Horn, Trombone, Baritone, Tuba and Concert Snare Drum. Students must bring their own instrument.

Grades 4-5 (completed)  Cost: $85

New—Full day STEM Workshops with Young Hacks Academy (YHA)—a summer program that uses technology to develop real-world leadership skills. Blending programming, problem-solving and teamwork, YHA teaches kids to build cool video games and interactive stories about big challenges facing the world today, such as climate change, homelessness and endangered wildlife. Outdoor time each day gets the students unplugged with fun group games. No programming experience necessary. Middle School opportunities available.

Agent Training
Whether it's public speaking or collaboration with peers, Agent Training models essential leadership techniques that will immediately help students in and out of the classroom. Agents tackle daily missions using Scratch, a user-friendly, visual programming tool that empowers students to quickly start developing their own games and stories. The challenge is to come up with a project that will not only entertain their friends, but also teach something about important topics impacting our local and global community. (Full Day Workshop)

Grades 4-7 (Beginner)  
Cost $330 Lunch Included
Instructor: Young Hacks Academy Instructor
Dates: July 9-13  
Time: 9:00AM-4:00PM
Location: Souderton Area High School—Room B118

Beta Masters
Imagine a small indie game studio that has five days to pitch, design and build a new video game. Following a real-world production cycle, Beta Masters work in teams to develop an innovative game prototype from conception to completion. Students will use the Stencyl game engine to take their computational learning to the next level, creating original graphics and bringing them to life with Haxe coding. The program culminates with a Beta release party in which friends and family act as investors. NEW- Middle School Option. (Full Day Workshop)

Grades 6-9 (Beginner-Intermediate)  
Cost $330 Lunch Included
Instructor: Young Hacks Academy Instructor
Dates: July 9-13  
Time: 9:00AM-4:00PM

WEEK 6: July 23-27

Team Elektra for Girls
The brilliant ones! A celebration of creative problem-solving and empowerment, Team Elektra all-girls program explores how the combination of computer science and digital expression can make a difference in the local and global community. As a grassroots organization, Team Elektra members develop interactive stories using Scratch, and collaborate on inspirational videos and websites about meaningful issues. They learn how to use code to create a powerful message that communicates to the world who we are and the positive change that we seek. Following the lead of successful women shaping the future in tech, Team Elektra unleashes confidence and life skills in a week full of creativity, design, color, and fun. Wait until you see what we create with code! NEW- Middle School Option. (Full Day Workshop)
Grades 5-9 (Beginner-Intermediate) Cost: $330 Lunch Included
   Instructor: Young Hacks Academy Instructor
   Dates: July 23-27 Time: 9:00AM-4:00PM
   Location: Souderton Area High School—Room B118

Internet of Things
The Internet of Things (IoT) is created and controlled with artful code. What was once the realm of desktops, laptops, and smartphones, now includes almost anything imaginable from cars to refrigerators, to traffic signals and multitudes of sensors. Understanding these systems can be very empowering while navigating our world. Those able to create such systems will be tackling many of Earth’s greatest problems and filling the marketplace with new and exciting products. For the emerging innovator with programming experience, Internet of Things builds experiential knowledge through IoT design challenges. Students will code Programmable Logic Controllers (PLCs) using the Arduino Integrated Development Environment (IDE), control electrical circuits and communicate with each other and the Internet. These design challenges present principles of computer science, computer networks, and electrical engineering within an authentic environment. Internet of Things students return from camp—not only with experiential knowledge—but also bring home an IoT PLC kit to continue innovating. NEW- Middle School Option. (Full Day Workshop)
Grades 6-9 (Intermediate-Advanced) Cost: $350 Lunch Included
   Instructor: Young Hacks Academy Instructor
   Dates: July 23-27 Time: 9:00AM-4:00PM
   Location: Souderton Area High School—Room B120

Little Chefs
Participants will enjoy kid-friendly favorites for budding chefs, including oven-baked chicken fingers, homemade pasta and meatballs and many more delectable treats! Each member of the family will enjoy these entrees when the kids make them at home. Instructors will share secrets of the kitchen while focusing on all sorts of fun recipes! Included: chef’s hat (toque), apron and certificate of completion and recipe booklet.
Grades K-3 Cost: $145.00
   Instructor: Kitchen Wizards Staff
   Dates: July 23-26 (Mon.-Thurs.) Time: 9:30-11:30AM
   Location: Souderton Area High School—Room B108

The Paper Experience
Jump-start your child’s creativity with amazing crafts made from all varieties of colorful paper. We will have reams of fun creating a calendar, cards with card holder, a mini scrapbook and other paper crafts. Students will be creative using ribbons, stamps, gems and many more accessories. Great for both boys and girls.

WEEK 7: July 30- August 3

Super Slimy Smokey Science
Junior scientist will dive into a variety of scientific fields as they mix and stretch silly putty and slime, copperplate nickels, and investigate the mysteries of optical illusions. Laser experiments and dry ice demonstrations will capture their attention as they observe how fun and exciting science can be. Watch hair-raising Van de Graaff experiments, help solve a mystery and much more. Tinker with circuits, catapults and experience what happens when you mix science and fun!
Grades K-5 Cost: $150.00
   Instructor: Mad Science
   Dates: July 30-Aug. 3 Time: 9:00AM-12:00PM
   Location: Souderton Area High School—Room B118

Crayola™ World of Design
Creative kids can take a journey to the edges of their imagination and beyond! Learn about Mars, the rainforest and cities of the future using the design process to solve real-world problems. Each day focuses on a specific design field—young architects, illustrators and graphic designers develop their ideas from concept to sketch to finished product. Experimenting with Crayola™ products to explore art techniques like sculpting, storyboarding, mixed media and collage bring concepts to life. Combining art, design, fun active games and inspiring themes from around the world, this workshop is designed to inspire!

**Red-Hot Robots!**

Join us for a week of fun with marvelous machines—robots! Students will explore the fundamentals of robotics and discover the science of circuits to see how robots use sensors to explore things around them. After experimenting with sound-sensing robots, line-tracking robots, amphibious robots and even robots that play soccer, the participants will be well-equipped to build a working robot to experiment with at home. Children will also build simple circuits, test for conductivity and learn how switches work as they participate in a variety of hands-on activities and games.

**All Star Space Camp**

If your child is astro “nuts,” he or she will absolutely love this camp! Participants will develop an interest for outer space or can expand a previous passion for our sensational solar system. Using the Scientific Method, campers will investigate the mechanics of unique flying machines, such as balloon-copters, boomerangs, and mini hovercrafts. They will delve into how early “pilots” navigated throughout space as they create their own sextant and sundial. Throughout the week, campers will explore the mysteries of space from an astronaut’s point of view! Aspiring astronauts will study gravity, propulsion, and the basics of rocket science with hands-on experiments and demonstrations. They will build their own Estes model rocket and prepare for grand finale rocket launch. (Full Day Workshop)
