DAY CAMP, PROGRAMS, AND WORKSHOPS WILL NOT BE PRO-RATED UNDER ANY CIRCUMSTANCE.

Parents will receive an Information Packet prior to the start of the summer program. This packet will contain all pertinent information about summer programs.
Our Club Adventure workshop program offers enrichment opportunities for children who don’t need a full day of camp, but would like to use their summer to explore different areas of interest. We schedule a variety of age appropriate workshops through the summer, open to students who have completed kindergarten through 7th grade (check workshop listings for age ranges).

Whether kids want to spend a week testing their culinary skills, creating arts or crafts, expanding their science and technology expertise, or exploring their creative talents, parents can create a summer of activities specific to their child’s interests and schedule.

Summer Adventure Day Camp— Pages 4-8

Summer Adventure is our day camp program and a place where children laugh, learn and love to come every day. We welcome children who have completed kindergarten through 6th grade. Each summer our campers explore a different adventure theme through games, songs, crafts, stories, outdoor activities, food, trips and their imagination. We offer children a structured day of fun activities while keeping in mind what kids need most in the summer—time to be a kid.

Our flexible schedule makes us a favorite among parents. We offer FREE extended hours and as always, lunch and snacks are included! Additional options include weekly field trips and swimming opportunities twice a week.

Club Adventure Workshops— Pages 9-15

The “Behind the Scenes” theme this summer will give campers the opportunity to learn more about many of their favorite movies. Each week camp will focus on a particular type of movie and campers will be able to dress up like their favorite characters, read stories related to the theme, learn how the movies were made and create artwork reflecting the films. Campers may even write, direct or star in their own movie! Field trips and activities will include many “Behind the Scenes” adventures.
