

# Second Grade Supply List

## 2023-2024

Below is a list of suggested items that second graders will use throughout the year.

- Several sharpened pencils (It would be helpful to have more at home to send in later as needed.)
- 2 Glue sticks (It would be helpful to have more at home to send in later as needed.)
- 1 box of crayons (24 count maximum- no big boxes please)
- 2 **black** dry erase markers (Students will need to use black for instruction and lessons. However, they may have other colors for free time drawing.)
- 1 clean sock. Your child will use this sock to hold his/her dry erase markers and as an eraser for our mini white boards. (It does not have to be a new sock.)
- Wired headphones for iPads
- A box of tissues to share with the class.
- A container of sanitizing wipes (ex: Clorox wipes) to share with the class.

Students can choose to bring in their own water bottle and hand sanitizer. However, our classrooms do have water fountains and sinks. We also have hand sanitizer dispensers. Students can use our class hand sanitizer or wash their hands with soap and water at the sink if their hands need to be sanitized.

Please send in only the above items as we will be working on keeping an organized work area. Also, second graders tend to play with and become distracted with extra materials in their desks.

Thank you for your support with this matter. I look forward to teaching your child this year.

Sincerely,

The Second Grade Teachers
